

Hardware Procurement Specifications

The vendor shall manufacture or procure the components listed in table 1 in accordance with all drawing specifications and/or all applicable mil-specs. For manufactured components the vendor shall provide a signed Certification of Conformance (COC) on company letterhead stating that all components were manufactured per the drawing specifications IAW CDRL A001 and that they are mercury free IAW CDRL A003. Material Certification sheets shall be provided for all components that are SUBSAFE IAW CDRL A002 as indicated by the drawing and table 1. A government source inspection (GSI) is required for the items marked as SUBSAFE. The GSI shall occur prior to delivery of the parts. Additionally, Requests for Deviation shall be provided as required IAW CDRL A004.

Table 1. Hardware Components

Nomenclature	PN	qty	SUBSAFE	Notes
SWITCH BRACKET, LH	8350596	4	N	
SWITCH BRACKET, RH	8350597	4	N	
SWITCH BRACKET, LH	8350600	14	N	
SWITCH BRACKET, RH	8350601	14	N	
OPEN GAG	8350606	8	N	
LEVER ARM LOCATOR PLATE	8423944	246	N	
Tie Rod*	8493921	104	Y	Shipped with thread savers
Pipe for Flange Sleeve*	8493923	26	Y	Pipe raw stock only in 2 foot lengths

* The tie rods shall be shipped with thread savers. The pipe for the flanged sleeve (PN 8493923) shall be provided in 2 foot lengths in raw stock only. Do NOT machine the pipe for flanged sleeve. Final machining will occur during ORDALT installation. The tie rods and pipe for flanged sleeve shall be shipped in wooden boxes. Each box shall contain 1 pipe and 4 tie rods.
